Biofertilizers

Aahaar-AC (*Azotobacter chroococcum*)

Aahaar AC is a carrier based Biofertilizer comprising of naturally occurring diazotrophic bacteria *Azotobacter chroococcum*. Because of their unique metabolism characteristic they can actively fix atmospheric nitrogen by conversion into ammonia. It is used as an effective soil application product. It provides nutrients to crops and maintained soil health. This product can be applied through soil/seed/seedling/irrigation water.

COMPOSITION	
Microbial cell mass & Fermentation Solids	1 - 2 %
Inert Liquid Carrier	38 - 40 %
Moisture	60 - 65 %
CFU Count	$5.0 \times 10^8/\text{gm}$

DOSE : 1Kg/acre

Recommended Crops: Chilies, Beans, Brinjal, Cucurbits, Okra, Onion, Pea, Potato, Sweet potato, Tomato, etc. **Wheat, Jowar, Bajra, Cow pea, Soybean, Coriander, Cumin, Garlic, Ginger, Turmeric, Cotton, Jute and Sugarcane, Coffee, Rubber, Tea, Cocoa, Apple, Banana, Citrus, Guava, Mango, Peach, Apricot, Ber, Grapes, Cashew, Melons, Papaya, Pomegranate etc.**

Benefits:

- * Increases PGPR population in soil.
- * Effectively fixes Nitrogen from atmosphere
- * Natural Nitrogen fixation improves both plant and soil health.
- * Earthworm friendly and eco friendly
- * Increases crops immune system against pest and pathogen.
- * Save up to 50% chemical fertilizer.
- * Increases the crops yield.
- * Increases seed germination and excellent crops growth.

**PACK SIZES : 100gm, 250gm, 500gm, 1Kg, 2Kg & 5Kg
100ml, 250ml, 500ml, 1Ltr, 2Ltr & 5Ltr**

Aahaar - AB (*Azospirillum brasilense*)

Aahaar AB is a carrier based Biofertilizer comprising of naturally occurring diazotrophic bacteria *Azospirillum brasilense*. Because of their unique metabolism characteristic they can actively fix atmospheric nitrogen in the soil. It is used as an effective soil application product. It provides nutrients to crops and maintained soil health.

This product can be applied through soil/ seed/ seedling/irrigation water.

COMPOSITION	
Microbial cell mass & Fermentation Solids	1 - 2 %
Inert Liquid Carrier	38 - 40 %
Moisture	60 - 65 %
CFU Count	5.0 X 10 ⁸ /gm

DOSE : 1Kg/acre

Recommended Crops: Chilies, Beans, Brinjal, Cucurbits, Okra, Onion, Pea, Potato, Sweet potato, Tomato, etc. Wheat, Jowar, Bajra, Cow pea, Soybean, Coriander, Cumin, Garlic, Ginger, Turmeric, Cotton, Jute and Sugarcane, Coffee, Rubber, Tea, Cocoa, Apple, Banana, Citrus, Guava, Mango, Peach, Apricot, Ber, Grapes, Cashew, Melons, Papaya, Pomegranate etc.

Benefits:

- * Increases PGPR population in soil.
- * Effectively fixes Nitrogen from atmosphere
- * Natural Nitrogen fixation improves both plant and soil health.
- * Earthworm friendly and eco friendly.
- * Increases crops immune system against pest and pathogen.
- * Save up to 50% chemical fertilizer.
- * Increases the crops yield.
- * Increases seed germination and excellent crops growth.

**PACK SIZES : 100gm, 250gm, 500gm, 1Kg, 2Kg & 5Kg
100ml, 250ml, 500ml, 1Ltr, 2Ltr & 5Ltr**

Aahaar - BP (*Bacillus polymyxa*)

Aahaar BP is a carrier based Biofertilizer comprising of naturally occurring diazotrophic bacteria *Bacillus polymyxa*. Their unique metabolism solublize the phosphorous and provide available phosphorus to plants. It is used as an effective soil application product. It provides nutrients to crops and maintained soil health. This product can be applied through soil/seed/seedling/irrigation water.

COMPOSITION	
Microbial cell mass & Fermentation Solids	1 - 2 %
Inert Liquid Carrier	38 - 40 %
Moisture	60 - 65 %
CFU Count	5.0 X 10 ⁸ /gm

DOSE : 1Kg/acre

Recommended Crops: Chilies, Beans, Brinjal, Cucurbits, Okra, Onion, Pea, Potato, Sweet potato, Tomato, etc. **Wheat, Jowar, Bajra, Cow pea, Soybean, Coriander, Cumin, Garlic, Ginger, Turmeric, Cotton, Jute and Sugarcane, Coffee, Rubber, Tea, Cocoa, Apple, Banana, Citrus, Guava, Mango, Peach, Apricot, Ber, Grapes, Cashew, Melons, Papaya, Pomegranate etc.**

Benefits:

- * Increases PGPR population in soil.
- * Effectively fixes Nitrogen from atmosphere
- * Natural Nitrogen fixation improves both plant and soil health.
- * Earthworm friendly and eco friendly.
- * Increases crops immune system against pest and pathogen.
- * Save up to 50% chemical fertilizer.
- * Increases the crops yield.
- * Increases seed germination and excellent crops growth.

**PACK SIZES : 100gm, 250gm, 500gm, 1Kg, 2Kg & 5Kg
100ml, 250ml, 500ml, 1Ltr, 2Ltr & 5Ltr**

Aahaar - R (*Rhizobium*)

Aahaar R is a carrier based Biofertilizer comprising of naturally occurring diazotrophic bacteria *Rhizobium*. Their unique metabolism actively fix atmospheric nitrogen in the root nodules of legumes. It is used as an effective soil application product. It provides nutrients to crops and maintained soil health. This product can be applied through soil/seed/seedling/irrigation water.

COMPOSITION	
Microbial cell mass & Fermentation Solids	1 - 2 %
Inert Liquid Carrier	38 - 40 %
Moisture	60 - 65 %
CFU Count	$5.0 \times 10^8/\text{gm}$

DOSE : 1Kg/acre

Recommended Crops: Chilies, Beans, Brinjal, Cucurbits, Okra, Onion, Pea, Potato, Sweet potato, Tomato, etc. **Wheat, Jowar, Bajra, Cow pea, Soybean, Coriander, Cumin, Garlic, Ginger, Turmeric, Cotton, Jute and Sugarcane, Coffee, Rubber, Tea, Cocoa, Apple, Banana, Citrus, Guava, Mango, Peach, Apricot, Ber, Grapes, Cashew, Melons, Papaya, Pomegranate etc.**

Benefits:

- * Increases PGPR population in soil.
- * Effectively fixes Nitrogen from atmosphere
- * Natural Nitrogen fixation improves both plant and soil health.
- * Earthworm friendly and eco friendly.
- * Increases crops immune system against pest and pathogen.
- * Save up to 50% chemical fertilizer.
- * Increases the crops yield.
- * Increases seed germination and excellent crops growth.

**PACK SIZES : 100gm, 250gm, 500gm, 1Kg, 2Kg & 5Kg
100ml, 250ml, 500ml, 1Ltr, 2Ltr & 5Ltr**

Aahaar - K (Potash solublizing bacteria)

Aahaar K is a carrier based Biofertilizer comprising of naturally occurring diazotrophic bacteria of Bacillus species. Their unique metabolism actively solublize the potash and provide the available potassium to plants. It is used as an effective soil application product. It provides nutrients to crops and maintained soil health. This product can be applied through soil / seed / seedling/irrigation water.

COMPOSITION	
Microbial cell mass & Fermentation Solids	1 - 2 %
Inert Liquid Carrier	38 - 40 %
Moisture	60 - 65 %
CFU Count	5.0 X 10 ⁸ /gm

DOSE : 1Kg/acre

Recommended Crops: Chilies, Beans, Brinjal, Cucurbits, Okra, Onion, Pea, Potato, Sweet potato, Tomato, etc. Wheat, Jowar, Bajra, Cow pea, Soybean, Coriander, Cumin, Garlic, Ginger, Turmeric, Cotton, Jute and Sugarcane, Coffee, Rubber, Tea, Cocoa, Apple, Banana, Citrus, Guava, Mango, Peach, Apricot, Ber, Grapes, Cashew, Melons, Papaya, Pomegranate etc.

Benefits:

- * Increases PGPR population in soil.**
- * Effectively fixes Nitrogen from atmosphere**
- * Natural Nitrogen fixation improves both plant and soil health.**
- * Earthworm friendly and eco friendly.**
- * Increases crops immune system against pest and pathogen.**
- * Save up to 50% chemical fertilizer.**
- * Increases the crops yield.**
- * Increases seed germination and excellent crops growth.**

**PACK SIZES : 100gm, 250gm, 500gm, 1Kg, 2Kg & 5Kg
100ml, 250ml, 500ml, 1Ltr, 2Ltr & 5Ltr**

Aahaar - Z (*Zinc solublizing bacteria*)

Aahaar Z is a carrier based Biofertilizer comprising of naturally occurring diazotrophic bacteria of Bacillus species. Their unique metabolism actively solublize the zinc and provide available zinc to plants. It is used as an effective soil application product. It provides nutrients to crops and maintained soil health. This product can be applied through soil/seed/seedling/irrigation water.

COMPOSITION	
Microbial cell mass & Fermentation Solids	1 - 2 %
Inert Liquid Carrier	38 - 40 %
Moisture	60 - 65 %
CFU Count	$5.0 \times 10^8/\text{gm}$

DOSE : 1Kg/acre

Recommended Crops: Chilies, Beans, Brinjal, Cucurbits, Okra, Onion, Pea, Potato, Sweet potato, Tomato, etc. **Wheat, Jowar, Bajra, Cow pea, Soybean, Coriander, Cumin, Garlic, Ginger, Turmeric, Cotton, Jute and Sugarcane, Coffee, Rubber, Tea, Cocoa, Apple, Banana, Citrus, Guava, Mango, Peach, Apricot, Ber, Grapes, Cashew, Melons, Papaya, Pomegranate etc.**

Benefits:

- * Increases PGPR population in soil.
- * Effectively fixes Nitrogen from atmosphere
- * Natural Nitrogen fixation improves both plant and soil health.
- * Earthworm friendly and eco friendly.
- * Increases crops immune system against pest and pathogen.
- * Save up to 50% chemical fertilizer.
- * Increases the crops yield.
- * Increases seed germination and excellent crops growth.

**PACK SIZES : 100gm, 250gm, 500gm, 1Kg, 2Kg & 5Kg
100ml, 250ml, 500ml, 1Ltr, 2Ltr & 5Ltr**

Biopesticides

Parmanu-PF (*Pseudomonas fluorescens*)

Parmanu - PF is a carrier based biopesticide comprising of naturally occurring diazotrophic bacteria *Pseudomonas fluorescens*. Their unique metabolic properties directly inhibit the pathogens either by producing antibiotics and extracellular lytic enzymes to lyse the pathogens. These microorganisms also show plant growth promotion activity by converting organic matters and essential nutrients to a form more available to plants. Parmanu - PF protect the plant from various pathogen, provides nutrients to crops & also maintains the health of soil. Parmanu - PF can applied through soil/seed/seedling/water irrigation/foliar spray.

COMPOSITION	
Microbial adjuvant & Sticker	1 - 2 %
Inactive liquid carrier	38 - 40 %
Moisture	60 - 65 %
CFU Count	5.0×10^8 /gm

DOSE : 1Kg/acre

Recommended Crops: Chilies, Beans, Brinjal, Cucurbits, Okra, Onion, Pea, Potato, Sweet potato, Tomato, etc. Wheat, Jowar, Bajra, Cow pea, Soybean, Coriander, Cumin, Garlic, Ginger, Turmeric, Cotton, Jute and Sugarcane, Coffee, Rubber, Tea, Cocoa, Apple, Banana, Citrus, Guava, Mango, Peach, Apricot, Ber, Grapes, Cashew, Melons, Papaya, Pomegranate etc.

Benefits:

- * Increases PGPR population in soil.
- * Effectively fixes Nitrogen from atmosphere
- * Natural Nitrogen fixation improves both plant and soil health.
- * Earthworm friendly and eco friendly.
- * Increases crops immune system against pest and pathogen.
- * Save up to 50% chemical fertilizer.
- * Increases the crops yield.
- * Increases seed germination and excellent crops growth.

**PACK SIZES : 100gm, 250gm, 500gm, 1Kg, 2Kg & 5Kg
100ml, 250ml, 500ml, 1Ltr, 2Ltr & 5Ltr**

Parmanu-MA (*Metarhizium anisopliae*)

Parmanu - MA is a carrier based biopesticide comprising of naturally occurring fungi *Metarhizium anisopliae*. Their unique metabolic properties directly inhibit the pathogens either by producing antibiotics and extracellular lytic enzymes to lyse the pathogens. Parmanu - MA protect the plant from various pathogen, provides nutrients to crops & also maintains the health of soil. Parmanu - MA can applied through soil/ seed/ seedling / water irrigation/foliar spray.

COMPOSITION	
Microbial adjuvant & Sticker	1 - 2 %
Inactive liquid carrier	38 - 40 %
Moisture	60 - 65 %
CFU Count	5.0×10^8 /gm

DOSE : 1Kg/acre

Recommended Crops: Chilies, Beans, Brinjal, Cucurbits, Okra, Onion, Pea, Potato, Sweet potato, Tomato, etc. Wheat, Jowar, Bajra, Cow pea, Soybean, Coriander, Cumin, Garlic, Ginger, Turmeric, Cotton, Jute and Sugarcane, Coffee, Rubber, Tea, Cocoa, Apple, Banana, Citrus, Guava, Mango, Peach, Apricot, Ber, Grapes, Cashew, Melons, Papaya, Pomegranate etc.

Benefits:

- * Increases PGPR population in soil.
- * Effectively fixes Nitrogen from atmosphere
- * Natural Nitrogen fixation improves both plant and soil health.
- * Earthworm friendly and eco friendly.
- * Increases crops immune system against pest and pathogen.
- * Save up to 50% chemical fertilizer.
- * Increases the crops yield.
- * Increases seed germination and excellent crops growth.

**PACK SIZES : 100gm, 250gm, 500gm, 1Kg, 2Kg & 5Kg
100ml, 250ml, 500ml, 1Ltr, 2Ltr & 5Ltr**

Parmanu-BB (*Beauveria bassiana*)

Parmanu - BB is a carrier based biopesticide comprising of naturally occurring fungi *Beauveria bassiana*. Their unique metabolic properties directly inhibit the pathogens either by producing antibiotics and extracellular lytic enzymes to lyse the pathogens. Parmanu - BB protect the plant from various pathogen, provides nutrients to crops & also maintains the health of soil. Parmanu - BB can applied through soil/seed/seedling/water irrigation/foliar spray.

COMPOSITION	
Microbial adjuvant & Sticker	1 - 2 %
Inactive liquid carrier	38 - 40 %
Moisture	60 - 65 %
CFU Count	5.0×10^8 /gm

DOSE : 1Kg/acre

Recommended Crops: Chilies, Beans, Brinjal, Cucurbits, Okra, Onion, Pea, Potato, Sweet potato, Tomato, etc. Wheat, Jowar, Bajra, Cow pea, Soybean, Coriander, Cumin, Garlic, Ginger, Turmeric, Cotton, Jute and Sugarcane, Coffee, Rubber, Tea, Cocoa, Apple, Banana, Citrus, Guava, Mango, Peach, Apricot, Ber, Grapes, Cashew, Melons, Papaya, Pomegranate etc.

Benefits:

- * Increases PGPR population in soil.
- * Effectively fixes Nitrogen from atmosphere
- * Natural Nitrogen fixation improves both plant and soil health.
- * Earthworm friendly and eco friendly.
- * Increases crops immune system against pest and pathogen.
- * Save up to 50% chemical fertilizer.
- * Increases the crops yield.
- * Increases seed germination and excellent crops growth.

**PACK SIZES : 100gm, 250gm, 500gm, 1Kg, 2Kg & 5Kg
100ml, 250ml, 500ml, 1Ltr, 2Ltr & 5Ltr**

Parmanu-VL (*Verticillium lecanii*)

Parmanu - VL is a carrier based biopesticide comprising of naturally occurring fungi *Verticillium lecanii*. Their unique metabolic properties directly inhibit the pathogens either by producing antibiotics and extracellular lytic enzymes to lyse the pathogens. Parmanu - VL protect the plant from various pathogen, provides nutrients to crops & also maintains the health of soil. Parmanu - VL can applied through soil/seed/ seedling/ water irrigation/foliar spray.

COMPOSITION	
Microbial adjuvant & Sticker	1 - 2 %
Inactive liquid carrier	38 - 40 %
Moisture	60 - 65 %
CFU Count	5.0×10^8 /gm

DOSE : 1Kg/acre

Recommended Crops: Chilies, Beans, Brinjal, Cucurbits, Okra, Onion, Pea, Potato, Sweet potato, Tomato, etc. Wheat, Jowar, Bajra, Cow pea, Soybean, Coriander, Cumin, Garlic, Ginger, Turmeric, Cotton, Jute and Sugarcane, Coffee, Rubber, Tea, Cocoa, Apple, Banana, Citrus, Guava, Mango, Peach, Apricot, Ber, Grapes, Cashew, Melons, Papaya, Pomegranate etc.

Benefits:

- * Increases PGPR population in soil.
- * Effectively fixes Nitrogen from atmosphere
- * Natural Nitrogen fixation improves both plant and soil health.
- * Earthworm friendly and eco friendly.
- * Increases crops immune system against pest and pathogen.
- * Save up to 50% chemical fertilizer.
- * Increases the crops yield.
- * Increases seed germination and excellent crops growth.

PACK SIZES : 100gm, 250gm, 500gm, 1Kg, 2Kg & 5Kg
100ml, 250ml, 500ml, 1Ltr, 2Ltr & 5Ltr

Parmanu-TV (*Trichoderma viride*)

Parmanu - TV is a carrier based biopesticide comprising of naturally occurring fungi *Trichoderma viride*. Their unique metabolic properties directly inhibit the pathogens either by producing antibiotics and extracellular lytic enzymes to lyse the pathogens. Parmanu - TV protect the plant from various pathogen, provides nutrients to crops & also maintains the health of soil. Parmanu - TV can applied through soil/seed/seedling/ water irrigation/foliar spray.

COMPOSITION	
Microbial adjuvant & Sticker	1 - 2 %
Inactive liquid carrier	38 - 40 %
Moisture	60 - 65 %
CFU Count	5.0×10^8 /gm

DOSE : 1Kg/acre

Recommended Crops: Chilies, Beans, Brinjal, Cucurbits, Okra, Onion, Pea, Potato, Sweet potato, Tomato, etc. Wheat, Jowar, Bajra, Cow pea, Soybean, Coriander, Cumin, Garlic, Ginger, Turmeric, Cotton, Jute and Sugarcane, Coffee, Rubber, Tea, Cocoa, Apple, Banana, Citrus, Guava, Mango, Peach, Apricot, Ber, Grapes, Cashew, Melons, Papaya, Pomegranate etc.

Benefits:

- * Increases PGPR population in soil.
- * Effectively fixes Nitrogen from atmosphere
- * Natural Nitrogen fixation improves both plant and soil health.
- * Earthworm friendly and eco friendly.
- * Increases crops immune system against pest and pathogen.
- * Save up to 50% chemical fertilizer.
- * Increases the crops yield.
- * Increases seed germination and excellent crops growth.

**PACK SIZES : 100gm, 250gm, 500gm, 1Kg, 2Kg & 5Kg
100ml, 250ml, 500ml, 1Ltr, 2Ltr & 5Ltr**

Parmanu-TH (*Trichoderma harzianum*)

Parmanu - TH is a carrier based biopesticide comprising of naturally occurring fungi *Trichoderma harzianum*. Their unique metabolic properties directly inhibit the pathogens either by producing antibiotics and extracellular lytic enzymes to lyse the pathogens. Parmanu - TH protect the plant from various pathogen, provides nutrients to crops & also maintains the health of soil. Parmanu - TH can applied through soil/seed/seedling/ water irrigation/foliar spray.

COMPOSITION	
Microbial adjuvant & Sticker	1 - 2 %
Inactive liquid carrier	38 - 40 %
Moisture	60 - 65 %
CFU Count	5.0×10^8 /gm

DOSE : 1Kg/acre

Recommended Crops: Chilies, Beans, Brinjal, Cucurbits, Okra, Onion, Pea, Potato, Sweet potato, Tomato, etc. Wheat, Jowar, Bajra, Cow pea, Soybean, Coriander, Cumin, Garlic, Ginger, Turmeric, Cotton, Jute and Sugarcane, Coffee, Rubber, Tea, Cocoa, Apple, Banana, Citrus, Guava, Mango, Peach, Apricot, Ber, Grapes, Cashew, Melons, Papaya, Pomegranate etc.

Benefits:

- * Increases PGPR population in soil.
- * Effectively fixes Nitrogen from atmosphere
- * Natural Nitrogen fixation improves both plant and soil health.
- * Earthworm friendly and eco friendly.
- * Increases crops immune system against pest and pathogen.
- * Save up to 50% chemical fertilizer.
- * Increases the crops yield.
- * Increases seed germination and excellent crops growth.

**PACK SIZES : 100gm, 250gm, 500gm, 1Kg, 2Kg & 5Kg
100ml, 250ml, 500ml, 1Ltr, 2Ltr & 5Ltr**

Parmanu-BS (*Bacillus subtilis*)

Parmanu - BS is a carrier based biopesticide comprising of naturally occurring fungi *Bacillus subtilis*. Their unique metabolic properties directly inhibit the pathogens either by producing antibiotics and extracellular lytic enzymes to lyse the pathogens. Parmanu - BS protect the plant from various pathogen, provides nutrients to crops & also maintains the health of soil. Parmanu - BS can be applied through soil/seed/seedling/water irrigation/foliar spray.

COMPOSITION	
Microbial adjuvant & Sticker	1 - 2 %
Inactive liquid carrier	38 - 40 %
Moisture	60 - 65 %
CFU Count	5.0×10^8 /gm

DOSE : 1Kg/acre

Recommended Crops: Chilies, Beans, Brinjal, Cucurbits, Okra, Onion, Pea, Potato, Sweet potato, Tomato, etc. Wheat, Jowar, Bajra, Cow pea, Soybean, Coriander, Cumin, Garlic, Ginger, Turmeric, Cotton, Jute and Sugarcane, Coffee, Rubber, Tea, Cocoa, Apple, Banana, Citrus, Guava, Mango, Peach, Apricot, Ber, Grapes, Cashew, Melons, Papaya, Pomegranate etc.

Benefits:

- * Increases PGPR population in soil.
- * Effectively fixes Nitrogen from atmosphere
- * Natural Nitrogen fixation improves both plant and soil health.
- * Earthworm friendly and eco friendly.
- * Increases crops immune system against pest and pathogen.
- * Save up to 50% chemical fertilizer.
- * Increases the crops yield.
- * Increases seed germination and excellent crops growth.

**PACK SIZES : 100gm, 250gm, 500gm, 1Kg, 2Kg & 5Kg
100ml, 250ml, 500ml, 1Ltr, 2Ltr & 5Ltr**

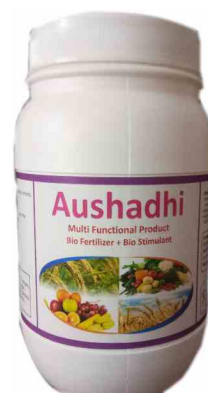

Multifunctional Products (Bio Stimulators)

Aushadhi

Aushadhi is an advanced multi functional formulation developed in such a way that it can work in both ways as a Biofertilizer and Bio Stimulant and can be used either by foliar spray, drip irrigation or directly physically broadcasting in the field by mixing with soil and other fertilizers like DAP, Urea etc. Aushadhi is a Granular formulation with a unique mixture of Humic acid, Fulvic acid, Plant Amino acid, Organic nutrients, Bio stimulants, Bio extracts, Seaweeds with a desired ratio of N, P & K as well. Aushadhi provides all constituents in balanced form for healthier crop/plant growth with a high quality yield. Aushadhi contributes to greater microbial activity when applied through physical broadcasting and thus stimulating/increasing the nutrient uptake ability and water holding capacity of crop/plant. Aushadhi is an all round product and can be used in all types of vegetables, fruits, paddy/rice, wheat, tea, coffee and cereal crops as well.

COMPOSITION	
Humic acid	20 %
Fulvic acid	15 %
Plant amino acids	12 %
Seaweeds	7 %
Bio Stimulants	7 %
Bio Extracts	8 %
Organic Nutrients	7 %
N, P & K	20 %
Filler & Stabilizers	4 %

DOSE : 500gm/acre

Recommended Crops: Chilies, Beans, Brinjal, Cucurbits, Okra, Onion, Pea, Potato, Sweet potato, Tomato, etc. Wheat, Jowar, Bajra, Cow pea, Soybean, Coriander, Cumin, Garlic, Ginger, Turmeric, Cotton, Jute and Sugarcane, Coffee, Rubber, Tea, Cocoa, Apple, Banana, Citrus, Guava, Mango, Peach, Apricot, Ber, Grapes, Cashew, Melons, Papaya, Pomegranate etc.

Benefits:

- * **Earthworm friendly and eco friendly.**
- * **Increases crops immune system against pest and pathogen.**
- * **Save up to 50% chemical fertilizer.**
- * **Increases the crops yield.**
- * **Increases seed germination and excellent crops growth.**

PACK SIZES : 100gm, 250gm, 500gm, 1Kg, 2Kg & 5Kg

Upjau Black Diamond

Upjau Black Diamond is a unique water soluble liquid product which is derived from Humic acid, Fulvic acid, Plant amino acids, organic nutrients with penetrators as well. Upjau Black Diamond is specially designed to provide essential requirement for the balanced growth of crop/plant. Upjau Black Diamond improves the soil health and also boosts up the immunity of crop/plant against various air & soil borne diseases.

COMPOSITION	
Humic acid	20 %
Fulvic acid	5 %
Plant amino acids	4 %
Organic Nutrients	4 %
Solubility	100 %
PH	6-8

DOSE : 1Ltr/acre

Recommended Crops: Chilies, Beans, Brinjal, Cucurbits, Okra, Onion, Pea, Potato, Sweet potato, Tomato, etc. Wheat, Jowar, Bajra, Cow pea, Soybean, Coriander, Cumin, Garlic, Ginger, Turmeric, Cotton, Jute and Sugarcane, Coffee, Rubber, Tea, Cocoa, Apple, Banana, Citrus, Guava, Mango, Peach, Apricot, Ber, Grapes, Cashew, Melons, Papaya, Pomegranate etc.

Benefits:

- * **Earthworm friendly and eco friendly.**
- * **Increases crops immune system against pest and pathogen.**
- * **Save up to 50% chemical fertilizer.**
- * **Increases the crops yield.**
- * **Increases seed germination and excellent crops growth.**

PACK SIZES : 100ml, 250ml, 500ml, 1Ltr, 2Ltr & 5Ltr

Upjau Diamond

Upjau Diamond is a unique water soluble liquid mixture derived from organic nutrients like humic acid, fulvic acid & plant amino acids with a mixture of organic nutrients as well. Upjau Diamond improves the soil health and also boosts up the immunity of crop/plant to fight against various air and soil borne diseases.

COMPOSITION	
Humic acid	15 %
Fulvic acid	4 %
Plant amino acids	5 %
Solubility	100 %
PH	6-8

DOSE : 1Ltr/acre

Recommended Crops: Chilies, Beans, Brinjal, Cucurbits, Okra, Onion, Pea, Potato, Sweet potato, Tomato, etc. Wheat, Jowar, Bajra, Cow pea, Soybean, Coriander, Cumin, Garlic, Ginger, Turmeric, Cotton, Jute and Sugarcane, Coffee, Rubber, Tea, Cocoa, Apple, Banana, Citrus, Guava, Mango, Peach, Apricot, Ber, Grapes, Cashew, Melons, Papaya, Pomegranate etc.

Benefits:

- *Earthworm friendly and eco friendly.
- * Increases crops immune system against pest and pathogen.
- * Save up to 50% chemical fertilizer.
- * Increases the crops yield.
- * Increases seed germination and excellent crops growth.

PACK SIZES : 100ml, 250ml, 500ml, 1Ltr, 2Ltr & 5Ltr

Sampurna

Sampurna is a Emulsion Concentrate with the mixture of botanical extract, natural growth promoters and biodegradable surfactant. It improves the nutrients uptake capacity and provide better condition for root and shoot development. Sampurna also induced the immunity of plant against various pathogens and diseases.

COMPOSITION	
Natural Plant Extracts	80 %
Biodegradable Surfactants & Adjuvants	20 %

DOSE : 500ml/acre

Recommended Crops: Chilies, Beans, Brinjal, Cucurbits, Okra, Onion, Pea, Potato, Sweet potato, Tomato, etc. Wheat, Jowar, Bajra, Cow pea, Soybean, Coriander, Cumin, Garlic, Ginger, Turmeric, Cotton, Jute and Sugarcane, Coffee, Rubber, Tea, Cocoa, Apple, Banana, Citrus, Guava, Mango, Peach, Apricot, Ber, Grapes, Cashew, Melons, Papaya, Pomegranate etc.

Benefits:

- *Earthworm friendly and eco friendly.
- * Increases crops immune system against pest and pathogen.
- * Save up to 50% chemical fertilizer.
- * Increases the crops yield.
- * Increases seed germination and excellent crops growth.

PACK SIZES : 100ml, 250ml, 500ml, 1Ltr, 2Ltr & 5Ltr

Swarnim

Swarnim is a Bio Stimulant (Micro Emulsion Concentrate) and an advanced nano technology based formulation. It is mixture of Bio Oils, Humic acid, Fulvic acid, Plant amino acids, Seaweeds, Bio stimulant, Organic nutrients with a desired ratio of N, P & K as well. Because of its advanced nano technology the penetration/absorption time of swarnim is very short to provide the best results within a short period of time. Swarnim is designed in such a way to give crop/plant all the necessary nutrition produce a good amount with high quality and enhanced yield. Swarnim stimulates plant growth, nutrient uptake, germination, sprouting and boosts plant vigor as well. Swarnim gives strength/immunity to crop/plant to fight against fungal diseases, abiotic stress and harsh weather conditions.

Swarnim is Biodegradable and completely safe for environment. Swarnim is a all round product and can be used in different types of vegetables, fruits, rice/paddy, wheat, tea, coffee and other cereal crops as well.

COMPOSITION	
Bio Oil Mixture	14 %
Humic acid	18 %
Fulvic acid	15 %
Plant amino acids	10 %
Seaweeds	5 %
Bio Stimulants	5 %
Organic Nutrients	5 %
N, P & K	20 %
Filler & Stabilizers	8 %

DOSE : 500ml/acre

Recommended Crops: Chilies, Beans, Brinjal, Cucurbits, Okra, Onion, Pea, Potato, Sweet potato, Tomato, etc. Wheat, Jowar, Bajra, Cow pea, Soybean, Coriander, Cumin, Garlic, Ginger, Turmeric, Cotton, Jute and Sugarcane, Coffee, Rubber, Tea, Cocoa, Apple, Banana, Citrus, Guava, Mango, Peach, Apricot, Ber, Grapes, Cashew, Melons, Papaya, Pomegranate etc.

Benefits:

- * Earthworm friendly and eco friendly.
- * Increases crops immune system against pest and pathogen.
- * Save up to 50% chemical fertilizer.
- * Increases the crops yield.
- * Increases seed germination and excellent crops growth.

PACK SIZES : 100ml, 250ml, 500ml, 1Ltr, 2Ltr & 5Ltr

SeQuor

SeQuor is a bio oil based composition along with nutrients in nano form for stimulating growth and gives immunity to crop/plant to fight against various pathogens & diseases. SeQuor is a bio stimulant and is made by combining variety of bio oils, bio extracts, bio stimulant, plant proteins and organic nutrients in nano form so that after applying on crop/plant it penetrates through leaves & stems to provide ultimate results within short period of time. SeQuor works as complete food for the crop/plant by giving a boost in growth and also gives the immunity/strength to fight against various pathogens and other fungal diseases. SeQuor is a all round product and can be used in different types of vegetables, fruits, paddy/rice, wheat, tea, coffee and cereal crops as well.

COMPOSITION	
Bio Oils Mixture	35 %
Bio Extracts	25 %
Plant amino acids	10 %
Organic Nutrients	15 %
Bio Stimulants	5 %
Fillers & Stabilizers	10 %

DOSE : 500ml/acre
